

TWISTED[®]

MARINE

OVERVIEW

The Twisted T200R. A compact solution for big adventures. The Twisted T200R is an incredible RIB with agile handling and best-in-class social space. At 23ft the T200R can be easily towed and launched single handed from wherever the adventure starts.

Powered by a 200HP outboard engine and rigged and commissioned in Salcombe, this British Made RIB has been through our Twisted artisan workshop to create a build like no other. Performance on the water is our obsession and it shows.

OVERVIEW

The Twisted T300R, a RIB, reimagined our way. The T300R has the same Deep V Hull and offshore capability as the flagship T450R. Considered the perfect size for many; the T300R has breath-taking performance from the roaring Mercury 300HP V8 outboard engine.

Perfect for adventure and water sports with adrenaline at the helm, you will know you are on a Twisted build from the moment you step onboard. From bow to stern our skilled marine engineers have refined the performance, handling and onboard equipment to create an uncompromised experience on the water. Another exceptional custom-built vehicle that is created for pure adventure and adrenaline.

OVERVIEW

The first Offshore Twisted RIB, the T450R. The distinctively stylish, high performance go anywhere RIB is British made and commissioned in Salcombe by our Twisted Marine Team. The RIB is based on a hull with over 30-years of pedigree to align with our ethos of the best made better. The 29ft RIB is powered by twin Mercury 225 V6 outboard engines to outperform even the toughest of sea conditions.

Demonstrating first-class useability with brilliant fun at the helm, the Twisted T450R is a natural pairing with our unrivalled experience on land. Another exceptional custom-built vehicle that is created for pure adventure and adrenaline.
